Be a Partner in Dance

As a partner of Connection Dance Works, your organization has the opportunity to support the arts and contribute to the sustainability of a vibrant and diverse arts community. Now entering its fifth year, the company's PERSPECTIVE series hosts performances in the fall and spring, and is considered one of Saint John and Southern New Brunswick's most innovative and creative venues for dance performance.

PERSPECTIVE is an evening of dance and discussion where dance artists and audience members connect and discuss works currently in development. The goal of this forum is to promote contemporary dance, while educating audiences about the creative process of the dance artist. In conjunction with the performances, Connection Dance Works arranges and hosts a variety of workshops, master classes, and other Outreach events in an effort to engage the community and foster an appreciation of contemporary dance.

As a registered non-profit, Connection Dance Works can deliver flexible and comprehensive sponsorship packages that provide excellent marketing opportunities and entertaining needs for organizations of any size. Our partnerships can be tailored to meet your company's specific goals.
